

FAITH SCENARIO

Imagine if one Nazarene pastor would set the *reasonable goal* of doing just what Jesus did ... and that is taking 3 years to make 12 Disciples that would be trained, in turn, to make 12 more Disciples each, in the following 3 years, etc., and the chain were to continue. It would look something like this if the chain were unbroken:

Years:	Disciples:	
1-3	12	So, a pastor would start "The Master's Plan" praying for his 12 within 3 years
4-6	144	That same pastor would be praying and working for his 144 within 6 years
7-9	1,728	
10-12	20,736	
13-15	248,832	
16-18	2,985,984	
19-21	35,831,808	Not just converts... but DiscipleMakers!

Not bad for a 21 year goal! It is my new 21 year goal... I will be 55 this year. 21 years would put me out there at 76... Moses didn't really get started until he was 80 and at 85 Caleb was asking for the mountains and the giants! Glory!!

And yet, the first guy that started this whole thing would still just be pouring his life into his 12 Guys! This is a reasonable, attainable goal, it really is. I believe it, and there are pastors walking around on this planet that already are working and praying for their 20,736... and God has given this many disciples of disciples to them! By God's power and His supernatural help... why can't I do this?!

Philippians 4:13! I CAN do all things through Christ who strengthens me!

What if **two** guys did this, or a hundred? I got pretty excited about the possibilities of this really happening. This seems like a goal worthy of our Great King Jesus!
